The Nasdaq Stock Market is an American stock exchange. It is the second largest exchange in the world by total market capitalization and operations. *Over the years, The Nasdaq Stock Market became more of a stock market by adding trades to the New York Stock Exchange.*

The Nasdaq Stock Market is an American stock exchange. It is the second largest exchange in the world by market capitalization, behind only the New York Stock Exchange. Over the years, The Nasdaq Stock Market became more of a stock market by adding trade and volume reporting and automated trading systems. It was also the first stock market in the United States to start trading online, highlighting Nasdaq traded companies and closing with the declaration that The Nasdaq Stock Market is the stock market for the next hundred years.
