About the font

Geogrotesque is a semi modular with a subtle rounded finish typeface. All the characters are based in the same formal principle with its corresponding optical adjustments in order to adapt the system to an alphabet for texts. Although the type family has a geometric or technological construction, the rounded finish provides it a warm appearance, making the typefaces nicer and nearby. Geogrotesque has been conceived to be used as a display typeface in publications or intermediate length texts, most of all the Thin and Ultralight weights which were meant to be used in big sizes.

Licenses

Desktop For use on a desktop computer. Including the most common uses, both personal and commerical, for use in desktop applications such as Adobe Photoshop, Adobe InDesign and Microsoft Office. Desktop licenses are based on the number of computers in which the font will be installed.

Webfont For a website or web application. A webfont license allows to embed the font into a website, so that it can be displayed on any browser. The license is based on a monthly pageview allowance for the webfonts. One time fee, this license does not need to be renewed if the site remain within that monthly pageviews.

ePub For use on an electronic publication. The license allows to embed the font in an electronic publication such as digital books, magazines, newspapers. An ePub license is based on the number of publications in which the font is used and each issue counts as a separate publication.

App For a mobile app for iOS, Android or Windows Phone, the license allows to embed the font in the mobile application's code. Licenses are purchased based on the total number of different apps created.

Server For use on sites, web apps, or services that allow a non-licensed user to utilize the font to create a personalized product. This license is valid for one year and is renewed each year that the font remains in use. A font downloaded with this license cannot be used in Software as a Service.
