***EXTRACT***

A test of a machine's  
ability to exhibit intelligent  
behaviour equivalent to,  
or indistinguishable from,  
that of a human.

*Artificial intelligence can be classified into three different types of systems: analytical, human inspired, and humanized artificial intelligence. Analytical AI has only characteristics consistent with cognitive intelligence, generating a cognitive representation of the world and using learning based on past experience to inform future decisions. Human-inspired AI has elements from cognitive and emotional intelligence, understanding human emotions, in addition to cognitive elements.*

Mechanical engineering is a discipline of engineering that applies the principles of engineering, physics and materials science for analysis, design, manufacturing, and maintenance of mechanical systems.

12 pt

Type design is the art and process of designing typefaces. This involves drawing each letterform using a consistent style. The basic concepts and design variables are described below. A typeface differs from other modes of graphic production such as handwriting and drawing in that it is a fixed set of alphanumeric characters.

10 pt

Type design is the art and process of designing typefaces. This involves drawing each letterform using a consistent style. The basic concepts and design variables are described below. A typeface differs from other modes of graphic production such as handwriting and drawing in that it is a fixed set of alphanumeric characters with specific characteristics to be used repetitively. Historically, these were physical elements, called sorts, placed in a wooden frame; modern typefaces are stored and used electronically.

About the font

Shentox is a highly legible contemporary font with a full range of weights, useable not only as a display family for headlines and posters, but as a distinct, clean font family for branding and general editorial use. It has been carefully drawn paying extra attention to the details, high end finishes that makes Shentox a safe font for use in large scale work. For example, the curves of every individual corner have been adjusted character by character to avoid the common problems encountered with square fonts.

Licenses

**Desktop** For use on a desktop computer. Including the most common uses, both personal and commercial, for use in desktop applications such as Adobe Photoshop, Adobe InDesign and Microsoft Office. Desktop licenses are based on the number of computers in which the font will be installed.

**Webfont** For a website or web application. A webfont license allows to embed the font into a website, so that it can be displayed on any browser. The license is based on a monthly pageview allowance for the webfonts. One time fee, this license does not need to be renewed if the site remain within that monthly pageviews.

**ePub** For use on an electronic publication. The license allows to embed the font in an electronic publication such as digital books, magazines, newspapers. An ePub license is based on the number of publications in which the font is used and each issue counts as a separate publication.

**App** For a mobile app for iOS, Android or Windows Phone, the license allows to embed the font in the mobile application's code. Licenses are purchased based on the total number of different apps created.

**Server** For use on sites, web apps, or services that allow a non-licensed user to utilize the font to create a personalized product. This license is valid for one year and is renewed each year that the font remains in use. A font downloaded with this license cannot be used in Software as a Service.
